Frameworks & Libraries: Django, React.js, Bootstrap

Digital Marketing: Social Media Marketing, SEO, Content Marketing, Social Media Management, Lead Generation, Google Analytics, Canva

Database Management: MySQL

Tools & Technologies: VS Code, PyCharm, Git, GitHub, Canva

WORK EXPERIENCE

Digital Marketing Executive

Achudha Enterprises Private Limited, Hosur, India | June 2025 – September 2026

Planned and executed digital marketing activities across social media and online channels to improve brand visibility and audience reach.

Created and managed engaging social media content, promotional posts, and campaigns using Canva and other digital tools.

Supported SEO, lead generation, audience engagement, and website promotion activities to increase online reach.

Monitored campaign performance and audience response, and contributed to improving digital marketing strategies.

PROJECTS

1. E-Commerce Website (FirstBuyMart)

Developed a fully dynamic e-commerce web application leveraging the Django framework. Integrated secure user authentication systems and standard payment gateway APIs. Designed a fully responsive frontend interface using Bootstrap and optimized database queries with MySQL.

2. Personal Portfolio Website

Created a responsive and interactive personal website to showcase professional skills and technical projects. Utilized HTML5, CSS3, JavaScript, and Django for backend functionalities; deployed and managed via GitHub.

3. JobPulse (Recruitment Portal)

Designed and structured a job portal platform to manage professional workflows involving users, candidates, and job posts. Implemented robust logic for resume uploading, profile management, and dashboard navigation using modern CSS frameworks.

4. Employee Management System

Developed an internal CRUD application to handle employee records, tracking details seamlessly via database integrations.
